

Fisheries Division  
Freshwater Trophy Fish Award Summary  
***Harvest Category***  
1965 to 2024  
April 2025

This document is published annually, starting in 2025, to provide a record of CT DEEP Fisheries Division's Trophy Fish Award program, which was initiated in April 1965<sup>1</sup>. The Fisheries Division started the program to *1. Acknowledge anglers for a significant catch and 2. For the Fisheries Division to obtain information on very large fish, which may not be collected using normal biological sampling gear.* A catch qualifies as a trophy fish by meeting the minimum weight for the species. All criteria and rules can be found on the Angler Recognition Web Page at <https://portal.ct.gov/DEEP-Trophy-Fish-Awards>

The information included in this document was obtained through the merger of several databases, which were populated from angler affidavits and historical records. Anglers are encouraged to notify the Fisheries Division of any possible errors.

From the onset of the program until 2019 there was only one category- "harvest". This required anglers to keep the fish and save it so that biologists could verify the identification and weight of the fish (if needed). Since the 1980's a growing number of anglers prefer to release their catches and not to harvest large fish. Based on this trend, the Fisheries Division began a second category, "Catch and Release". The Catch and Release category (data in a separate document) is based on the length of the fish. In combing through the historical data, it was noted that some anglers had submitted fish, which were later released, as there were only length and no weights. These fish were added to the Catch and Release document to preserve the information.

All angler applications can be submitted using the Fisheries Divisions online form, which is available on the angler recognition webpage.

For more about the history of this program view the article in [Connecticut Wildlife May/June 2019](#).

The Connecticut Department of Energy and Environmental Protection is an Affirmative Action/Equal Opportunity Employer that is committed to complying with the requirements of the Americans with Disabilities Act. Please contact us at (860) 418-5910 or [deep.accommodations@ct.gov](mailto:deep.accommodations@ct.gov) if you: have a disability and need a communication aid or service; have limited proficiency in English and may need information in another language; or if you wish to file an ADA or Title VI discrimination complaint.

---

<sup>1</sup> Prior to April 1965 only information on the state record (largest fish by weight) was kept. These records were incorporated into the "Harvest" document.
