Website: www.ct.gov/trb

Dear Retiree,

Following a rigorous proposal process, the Connecticut Teachers' Retirement Board accepted the recommendation of the healthcare committee to select Aetna and The Hartford to administer retiree benefits effective January 1st, 2026. The Teachers' Retirement Board will continue to provide two comprehensive Medicare benefit programs, and the plan design is not changing:

- A Group Medicare Advantage (PPO) plan with prescription drug administered by Aetna and;
- A Group Medicare Supplemental Plan administered by The Hartford with prescription drug administered by Aetna
- The Part D prescription drug program will be the same regardless of the medical benefit.

Dental benefits will continue through Cigna.

In the coming months, you will receive additional communication from the Teachers' Retirement Board regarding plan details and open enrollment meetings which will take place in October, both virtual and in-person (local to Connecticut). A transition call center will be made available to you in September. We will provide additional information at that time.

We understand change is never easy and we are taking every step to ensure you have the information and support you need during this transition.

Sincerely,

The Connecticut Teachers' Retirement Board
